Professional Summary

Full-Stack Software Engineer with 4+ years of experience building and delivering production web applications and business systems using Laravel, PHP, React.js, Vue.js, JavaScript, and MySQL. Proven experience delivering end-to-end projects for international clients, from architecture and API design through payment gateway integration, VPS deployment, and production support. Capable of managing projects from requirement analysis to live release while collaborating effectively with cross-functional teams in fast-paced delivery environments.

Technical Skills

Languages	PHP, JavaScript, TypeScript, Python, Java, C#, C++
Frontend	React.js, Vue.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite
Backend	Laravel, Node.js, Express.js, RESTful API Development
Databases	MySQL, Microsoft SQL Server, MongoDB, Firebase
Cloud & DevOps	Linux VPS, Hostinger VPS, Cloudflare, Git, GitHub, GitLab, DNS, SSL
Tools	Postman, Composer, NPM, VS Code, Figma, cPanel

Professional Experience

Rabbit Solutions (PVT) Ltd

Junior Software Engineer — ***Feb 2024 – Present***

- Own end-to-end delivery of business-critical modules across frontend, backend, and database layers using Laravel, React.js, Vue.js, and MySQL, from requirements through production release.
- Design and secure RESTful APIs consumed by frontend applications and third-party services, ensuring reliable and efficient system integration.
- Lead root-cause analysis and resolution of production incidents, improving application stability, reliability, and overall performance.
- Review pull requests and mentor junior engineers on Laravel MVC conventions, coding standards, and API design practices.
- Optimize database queries and application bottlenecks to improve system performance, responsiveness, and user experience.
- Author technical documentation, API references, and deployment runbooks used by the wider engineering team.

Software Engineer Intern — ***Feb 2023 – Jan 2024***

- Contributed to full-stack feature development using PHP, Laravel, Microsoft SQL Server, HTML, CSS, and JavaScript under senior developer guidance.
- Assisted with application configuration, debugging, client support, testing, and release activities while gaining hands-on production experience.

Sichrotec Technology Solutions Inc.

QA Engineer & Business Analyst (Freelance) — ***Dec 2025 – Present***

- Perform functional and API testing to ensure software quality, reliability, and system integration accuracy.
- Analyse business requirements and user workflows to identify improvements and validate solutions.
- Prepare test cases, bug reports, and technical feedback while collaborating with development teams.
- Validate frontend interfaces, backend processes, and database-driven features for usability and performance.

Education

BSc (Hons) Software Engineering — 2024 – 2025
Cardiff Metropolitan University, United Kingdom

Higher National Diploma in Software Engineering — 2022 – 2023
National Institute of Business Management, Sri Lanka

Selected Freelance & Independent Projects

Crown Motors NZ – Automotive Business Website **2026**
Live: crownmotors.nz | GitHub
React.js, TypeScript, Tailwind CSS, Vite, Cloudflare

- Designed and developed a responsive automotive business website for an international client in New Zealand, from component architecture through production deployment.
- Built reusable and type-safe frontend components using React.js, TypeScript, and Tailwind CSS, delivering a responsive and high-performance user experience.
- Configured Cloudflare DNS, SSL, domain settings, hosting, and production deployment for a smooth public launch.

Melbourne Geotechnical – Business Management Platform **2024**
Live Site | GitHub
Laravel, PHP, MySQL, JavaScript, VPS Hosting

- Built a Laravel-based management platform supporting scheduling, quotations, consultations, and business operations for an Australian client.
- Designed database-driven backend modules following MVC architecture and secure development practices.
- Managed VPS configuration, deployment, application maintenance, and performance optimization.

BarberTime NZ – Appointment & Business Management System **2025**
Live: barbertime.co.nz
Laravel, PHP, Stripe, MySQL, Tailwind CSS

- Developed a complete appointment booking and business management platform with dedicated customer and administrative workflows.
- Integrated Stripe for secure online payments and implemented automated booking confirmations and notifications.
- Developed backend functionality for services, appointments, customers, payments, and administration.

Whale Watching Mirissa – Tourism Booking Platform **2025 - 2026**
Frontend | Booking System
Laravel, PHP, PayHere, MySQL, JavaScript

- Developed a tourism booking platform featuring dynamic pricing, reservation management, and operational workflows for customer bookings.
- Integrated the PayHere payment gateway for secure online transactions and payment processing.
- Built an administration dashboard for managing bookings, schedules, pricing, customers, and operational information.

Sri Soul Ventures – Travel & Tourism Platform **2026**
Live Site | GitHub
Laravel, PHP, MySQL, Bootstrap, JavaScript

- Developed a comprehensive travel and tourism platform featuring destinations, experiences, tour packages, custom tours, and customer enquiry management.
- Built a dynamic administration dashboard for managing website content, destinations, tour packages, experiences, customer enquiries, and media assets.
- Implemented responsive user interfaces, secure backend functionality, and content management features using Laravel MVC architecture.

Certifications

Postman API Fundamentals – Student Expert	2025
University of Moratuwa – Server-Side Web Programming	2023
University of Moratuwa – Programming in Python	2023
ISC2 – Certified in Cybersecurity (Self-Paced Training)	2023
University of Moratuwa – Front-End Web Development	2022

Additional Information

Soft Skills	Problem Solving, Team Collaboration, Communication, Leadership, Analytical Thinking, Adaptability, Fast Learning
Languages	Sinhala – Native Proficiency; English – Professional Working Proficiency
